

Agriculture Division of DowDuPont

At Corteva Agriscience™, Agriculture Division of DowDuPont, we grow progress by putting farmers and consumers at the heart of agriculture. By doing this, we are reshaping the industry to meet the needs of the twenty-first century. We believe that the future of farming depends on aligning the food value chain from end to end. Together, we can achieve a more financially secure, sustainable, innovative and responsive agricultural industry.

We are helping to shape an industry that is better able to understand and react to global market demands, that can effectively harness science, technology and innovation to optimise productivity, and that has the know-how and resources to help chart its own long-term success in the face of challenge and change.

Our Purpose

To enrich the lives of those who produce and those who consume, ensuring progress for generations to come.

Our Values

- Enrich Lives** We commit to enhancing lives and the land
- Stand Tall** We are leaders and act boldly
- Be Curious** We innovate relentlessly
- Build Together** We grow by working with others
- Be Upstanding** We always do what's right
- Live Safely** We embrace safety and the environment in all we do

Creating One Company

We are bringing together DuPont Crop Protection, DuPont Pioneer and Dow AgroSciences to create a market-shaping, stand-alone agriculture company with leading positions in seed technologies, crop protection and digital agriculture.

We will work across the global agriculture value chain to create a more efficient food system. We will continue to invest in some of the most recognized and premium seed brands in agriculture, such as Pioneer®, Mycogen®, PANNAR® and the newly launched Brevant™ seed brand, as well as our award-winning crop protection products.

Our Products

Seed Solutions: alfalfa, canola, cereals, corn, cotton, rice, silage inoculants, sorghum, soybeans, sunflowers, wheat

Crop Protection Solutions: herbicides, fungicides, insecticides, pasture and land management, seed applied technologies, urban pest management, turf and ornamental pest management

Digital Services: software for growers to build and sustain stronger businesses by maximizing yield with data-driven crop models, improving teamwork efficiency and communication, measuring profit down to the field-level and simplifying farmland research and transactions
